

»MANAGED ACCOUNT«

We are pleased to introduce our financial advisory service:

»Managed Account« - a personalized investment portfolio tailored to specific needs of the account holder, managed by a professional manager.

»Managed Account« is an investment account held at a brokerage firm and owned by an investor, either institutional or corporate, or a natural person.

All transactions in »Managed Account« are carried out by professional manager. This can be a Money manager, a Commodity Trading Advisor (CTA) or a professional trader. The manager is selected on the basis of selective process, past performance, applied trading strategies and investor's profile.

»Managed Account« is held at one (or more) of the brokerage firms we cooperate with:

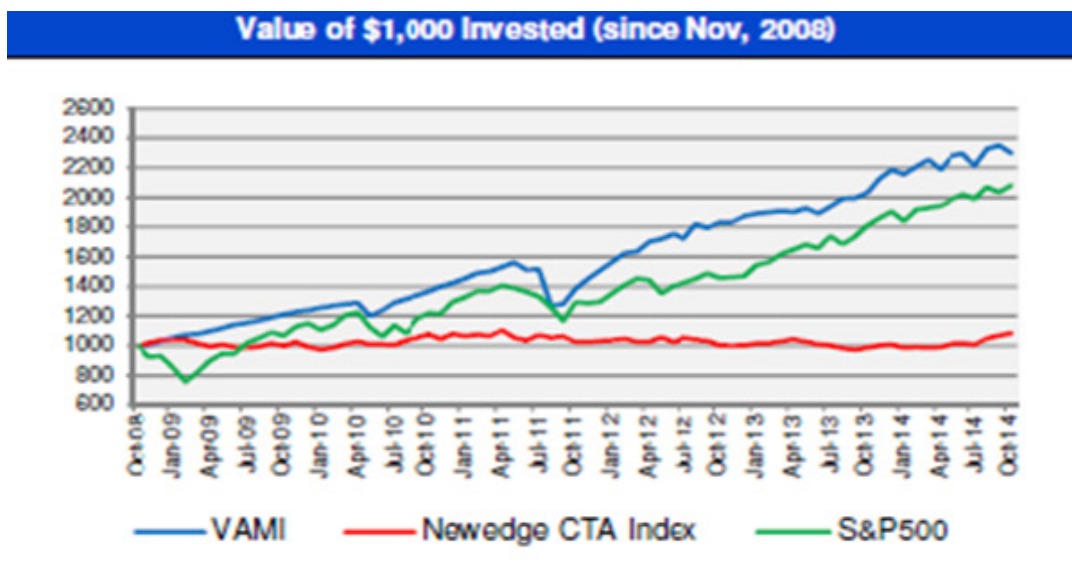

ADM Investor Services International (ADMISI)

R.J. O'Brien

Forex Capital Markets (FXCM)

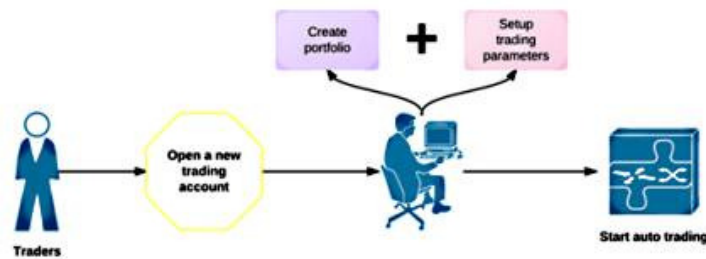

City Credit Capital

Varengold Bank FX

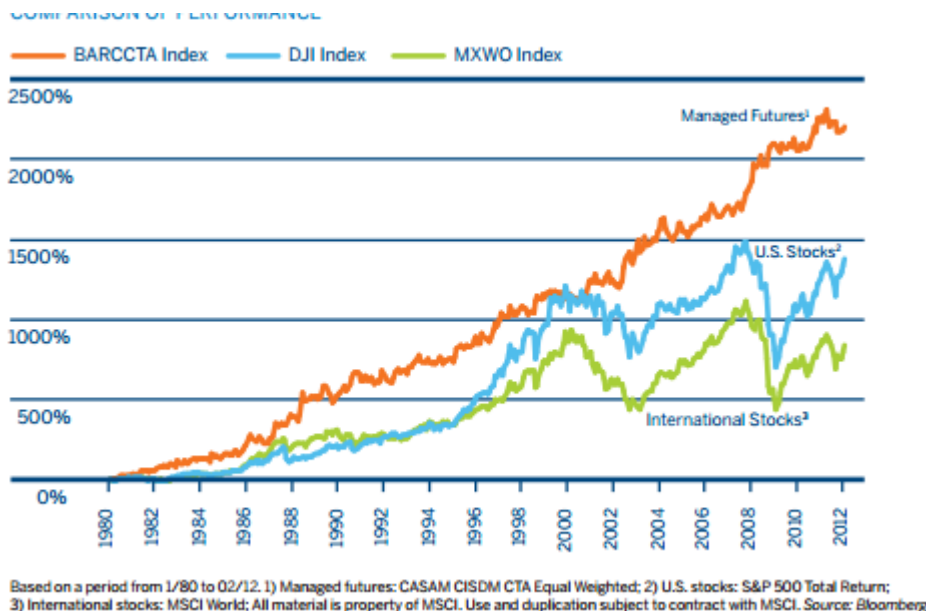

Based on a signed agreement, an investor's »Managed Account« is connected with the manager's trading account.

All buy and sell transactions made by a professional manager in his account are carried out automatically and in real-time in the investor's »Managed Account«.

Investor may select one or more managers to manage his »Managed Account«, depending on the amount invested, and may have one or more »Managed Accounts« at the same time.

»Managed Account« allows trading with the majority of financial instruments – Futures (Managed Futures), Foreign exchange (Forex), Contracts For Difference (CFD), options and stocks .

Professional manager applies short-term trading strategies (i.e. »day trading« and »swing trading« strategies), with the use of leverage.

One of many benefits »Managed Account« offers, is the possibility of generating returns both in bull and bear markets.

Investor has a 24 hours 7 days access to his »Managed Account« and can monitor its value, completed transactions and open positions. This gives an investor a full overview of the manager's actions and his portfolio performance.

For our valued clients, we can provide monitoring of their »Managed Account« (Managed Account Monitoring).

Investor's funds are safely deposited in segregated (trust) bank account at the top global banks. In addition, funds are protected by The Financial Services Compensation Scheme (FSCS) or Compensatory Fund of German banks (EdB).

We offer »Managed Account« services in cooperation with our international partners:
